Bath and Massage Oil

Introduction

Bath oil or massage oil is one of the most commonly used oil. This is prepared by cold mixing of different varieties of herbal extract oil. There is almost no necessity of heat for the preparation of bath oil or massage oil. Uniform mixing is the proper way of making quality massage oil. The main ingredients are silybeim marianum ethylester jojoba oil, sandal wood essential oil, yland ylang essential oil, jasmin absolute, palmorsa essential oil, mandarine orange essential oil, peppermint oil, etc. Stainless steel 304 vessels are used for the mixing of oil with agitation. After proper mixing oil is packed in bottle with proper lable. Quality of the oil should be checked before marketing. It is stored in room temp. or in cool conditions.

Uses

- 1.It is used for massaging on the body to keep the body fresh and smooth.
- 2.It may be used for removing body pain.

Properties

- 1.It is generally uniform liquid.
- 2.It should have a good flavour and colour.
- 3.It should not be corrosive.
- 4.It is neutral in pH.
- 5.There should not be any free fatty acid.
